METHODISTS' CONFERENCE.

LOCKED OUT CUTTERS CONFIDENT.

Beginning of the Fight on the Clothing New York, March 27.-The locked-out lothing cutters held a lively meeting this forenoon. There were about 700 of them present, Before the regular business was taken up Secretary White announced that there were

number of non-union men and Knights of La-bor in the hall who had come out in sympathy with them. Any of those who had come out and wished to join the federation would be admitted without an initiation fee.

Twenty men were at once enrolled. Secretary White also announced that any of the men who wished to go to Rochester or Boston to work would have their fares paid. The locked-out men are confident that they will cripple the manufacturers and finally win. No attempt will be made, they say, to interfere with union men who are at work in shops where the men were not locked out, but

shops of the clothing manufacturers associa-tion will be treated as "scabs." TO SUCCEED M. FERRY.

M. Lacour Elected President of the French Paris, March 27.—The Senate today elected Chailemel-Lacour, the well-known statesman and writer and senator from Bouches-Du-Rhone president of the senate in place of Jules Ferry,

The election is very satisfactory to President Carnot and the supporters of the government, and is all the more popular on account of the recent election of M. Challemel-Lacour to Renan's seat in the French Academy.

JOHN C. ENO'S CASE. Prospect of the Defaulting Banker Escap-

New York, March 27.-Judge Wallace, in the United States circuit court, this morning handed down a decision in the case of John C. Eno, the defaulting president of the Second National Bank, who in 1884 fled to Canada to escape punishment for misappropriating the funds of the bank, but returned to this city a few months ago to face the music.

Five indictments against Eno lay in the district attorney's office, and when the absconding president returned he was compelled to furnish \$10,000 bail to District Attorney Nicoll.

Eno's counsel, Col. Blass, took steps to have the case removed from the jurisdiction of the The case was argued before Judge Wallace in Albany several weeks ago. District Attorney Nicol, who opposed the motion, contended that Eno's offense was committed against the United States banking laws as operated in the state of New York, which made him subject to punishment under the laws of the state.

EXWER AND WATER CONNECTIONS.

The Commissioners today ordered that section 11 of the general regulations of the building regulations be amended by the addition thereto of the following paragraph:

"All houses in course of exections of well as axisting houses and premises, shutting on public sewers and water mains provided by the engineer department of the District of Columbia shall be connected therewith when, in the opinion of the Commissioners, such connection is necessary for the public health."

Scott's Emulsion

of Cop-Liver Oil, with hypophosphites of lime and soda, is a universal Spring nourishment. It makes the weak strong. and preserves strength in those fortunate enough to possess it. Consumptives, and all whose lungs are weak, can not well get along without it. Thin persons need the flesh it supplies. Those whose blood is impoverished, either by chronic ailments or by the strain of Winter, and children whose energy is sapped by growth, ought to take SCOTT'S EMULSION. In fact, almost everybody needs in the Spring the ready nourishment it furnishes.

The reason for this universal benefit of SCOTT'S EMULSION is in the nature of the preparation. It is a food rich in fat, and is in such a form that the system can utilize its properties thout effort. All fat has to be emulsified, or broken up into tiny particles, before it can be assimilated. The fat in SCOTT'S EMULSION is already emulsified, and the oil is made palatable. It is therefore an easy food, and can be taken by persons with weak stomachs Physicians, the world over, endorse it.

AGAINST THE FARIBAULT PLAN.

Resolutions Introduced at the Conference at Front Royal.

Special Dispatch to The Evening Star.

FRONT ROYAL, VA., March 27.—The Baltimore conference of the M. E. Church South this morning adopted a number of committee reports. The special committee appointed to consider the charges against Rev. V. W. Wheeler of Clifton Forge reported that no evidence could be obtained upon which to base a bill of charges. Rumors of intemperance had been circulated against Mr. Wheeler. The matter was referred to another committee, Mr. Wheeler asking a full investigation.

Resolutions were introduced protesting against the Faribault school plan and were referred to a special committee.

The statistical reports showed the following figures: For Washington district, members, ent indebtedness on church property, \$3,649: present indebtedness on church property, \$12,284; Figure 1972, 100 bid.—asked. LIQUOR SELLERS' RIGHTS

The Hearing in Regard to the Constr of the Liquor Law Today. New York, March and higher. The gain in prices ranged from men in the Fonce court argument in the Bush liquor cases was resumed. It to 1 per cent, the latter in Tennessee coal argument in the Bush liquor cases was resumed. Gen. Birney resumed his argument, giving the constructions of the new law. He said There was the usual large number of liquor men in the Police Court this afternoon when "For the protection of their vested rights the holders of licenses dated prior March 3, 1893, and issued for the current license year, stand upon section 17 of the new law. They ask no change of its language by construction; no subtle in-terpretation to warp its meaning; no new rules of grammar to turn a past tense into a future For them, a license is a license, no matter what may be its date. Having had licenses during the year preceding November 1, 1893, they have the right under the literal terms of the new law to apply on or before that date for new ones. "The theory of the prosecution ignores the letter and violates the spirit of section 17 of the new law; defices the ordi-

> claims that a license universally known as such and always beretofore spoken of by the courts as such is no license. GEN. BIENEY'S AMENDMENT. "To sustain that theory," he continued, "It would be necessary for the court to add substantially the following provisions to section 17 of the law of March 3, 1893: "Provided, however, that the words during the preceding year when applied to the current license year shall be so construed as to exclude the months of November, December, January and February and the first two days of March. Pro-vided, also, that the word "license" contained in the first line shall not apply to any license for the current license year issued by the Dis-

nary rules of grammar; makes a year consist of seven months and twenty-eight days, and

trict Commissioners during the months and "It being the intent of this act to repudiate the license contracts heretofore entered into by the District Commissioners, and," added Gen. Birney, "to keep the money paid as the consideration for said contracts and to take for the public use, without compensation, all the rights vested in the owners of the privileges

granted in said contracts."

Following this counsel referred to the words
"such license" and said that Congress evidently
meant this to include the licenses granted
under the old law, and when he applied for a
renewal of the license he would make the application for a renewal under the new cation for a renewal under the new. "There is no such thing as a renewal of a license," remarked Judge Miller. "When a man makes application it is for a new license and not for a renewal of the old license."

Ex-Commissioner Douglass was present when Mr. Hazelton rose to make his final address.

"I'll admit for the sake of argument," said
Mr. Hazelton, "that the act of 1871 is a revenue
act, and that being the case I submit that it
must fall before the police act, which has for
its object the good of the community, and it
must therefore stand higher than an act for
revenue only."

revenue only."

The court remarked that the question narrowed down to whether the law of '71, being a revenue act, made sacred a contract which Congress could not revoke.

ASSESSMENT FOR CURBING.
